GARDEN OF EDEN

Believed to Have Been Located in
Klondike.

Was the father of mankind an American and was Adam and Eve's garden of Eden located in the Klondike. are questions soberly raised by science, and to be personally investigated by Norman Buxton, of Johnson, Ohio, backed by the capital of Morris L. Jesup, the millionaire New York banker, and President of the museum.

Believing that the red Indian was the primal type of man, a unique expedition has been started on the task of finding out all about the Indian tribes of the Arctic zone. The three men whom Banker Jesup has placed in charge of the explorations are Waldemar Bogarus and Waldemar Jackelson, Russians of scientific renown, and Norman Buxton, whose lectures on "Arctic Alaska" will be readily recalled.

Mr. Buxton was a member of the famous McIlhenny scientific expedition to point Barrow, Alaska, and brought from the wilds of the frozen North many curious specimens met with on his travels.

The immediate destination of two of the explorers will be Northeastern Siberia, the theory being held that primal man crossed the world from North America to Siberia, and these deductions have been drawn from investigations made by Dr. Boaz, Livingston Farrand and Harlan J. Smith, who claim that instead of the Asiatic people crossing to the American continent the migrations were from the New World to the Old. The explorers are to separate at Vladivostok, Buxton traveling northward and expecting to meet his comrades in 1901.

Mr. Buxton will confine his work mainly to the zoological field. He will make a collection of birds and mammals of the regions to be explored and also excavate for bones of the enormous animals which once inhabited Northeastern Siberia.

The Russian Government has placed every facility at the command of the explorers, who will carry provisions for two years, and expect to make most of their journey on foot.

In 1903 the three travelers are to meet in New York City, arrange their specimens, compile accounts of their scientific researches and decide from a scientific standpoint whether the Garden of Eden was in the Klondike, which region Mr. Buxton will make particular report upon.

HAS NATURE WARNED YOU?

Nature herself clad in the early garbs of spring, blossoms forth trees and flowers causing the dependent chord to vibrate to this, the most delightful of all, springtime and how do you feel? Have you that tired shaky feeling, the forerunner of Chills, Malaria and Typhoid Fever? If so, you must not pass this warning as it is an indication of sickness; avoid this; consult us as our advice costs you nothing. Call on your druggist and procure a bottle of Dr. Carlstedt's German Liver Powder. Take one dose a day at bed time for six days; then follow by procuring a bottle of Yucatan Chili Tonic, following the directions and after two weeks' course of these two great remedies, you will feel like the flowers look in the spring. Prepare yourself for the malarial or hot season when the atmosphere is full of germs. If necessary and when your system warns you, repeat the above. These Remedies in stock and sold by

Business Truths Proved True By a Well Known Advertising Authority.

Advertising is the "Golden Gate" to prosperity.

Advertising is the lever that moves the business world.

Scientific advertising is a development of the last half century. There's an instinct for every vocation—very few men have advertising instinct.

Do you want to feel the pulse of the buying world? Advertise.

The old Cobweb and Spider style of obtaining business is a thing of the past—now you must get customers by judicious advertising.

The public is just as anxious to buy your goods as you are to sell—if the merit is there.

In almost every business there is one leader—where is your place in line?

Procrastination of advertising plans may be the thief of prosperity.

The proper time to prepare an advertising campaign is now—be ready.—From the Boston Herald.

Too Much For Him.

At a gathering near Fulton a slight-of-hand performer was performing the old trick of producing eggs from a hat, when he remarked to a little boy: "Your mother can't get eggs without hens, can she?" "Of course she can!" replied the lad. "Why, how is that?" asked the conjurer. "She keeps ducks," replied the boy, amid roars of laughter.—[Fulton Leader.
